INDEPENDENT AUDITOR'S REPORT

September 19, 2006

To the Chairman and Members of the
Northwest Utilities Authority
319 Tittabawassee Road
Saginaw, Michigan 48604-1263

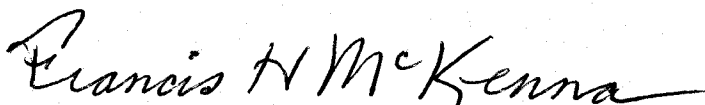

I have audited the accompanying basic financial statements of the *Northwest Utilities Authority*, Saginaw County, Michigan as of and for the year ended June 30, 2006 and 2005 as listed in the table of contents. These financial statements are the responsibility of the *Northwest Utilities Authority's* management. My responsibility is to express an opinion on these basic financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the *Northwest Utilities Authority*, Saginaw County, Michigan at June 30, 2006 and 2005, and the changes in its financial position and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The *Northwest Utilities Authority* has not presented a management's discussion and analysis, which would be an analysis of the financial performance for the fiscal years. The Governmental Accounting Standards Board has determined that the management's discussion and analysis is necessary to supplement, although is not required to be a part of, the basic financial statements.

My audit was made for the purpose of forming an opinion on the financial statements that comprise the *Northwest Utilities Authority's* basic financial statements. The accompanying other supplementary information, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

NORTHWEST UTILITIES AUTHORITY

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Northwest Utilities Authority (the "Authority") conform to accounting principles as applicable to Enterprise Funds of governmental units. In accordance with accounting principles generally accepted in the United States of America, there are no component units to be included in these financial statements. The following is a summary of the significant accounting policies used by the Authority.

ORGANIZATION:

The financial data contained in this report includes all activities for which the Northwest Utilities Authority, a municipal joint venture, has oversight responsibility. A five member Board administers the Authority, one person from each constituent municipality and County.

On August 3, 1987, the City of Zilwaukee, Township of Carrollton, Charter Township of Saginaw and Township of Kochville created the "Northwest Utilities Authority". The purpose of this "Authority" is to acquire, own, improve, enlarge, extend and operate a sewage disposal system in accordance with State Act 233, PA 1955, as amended, (from the point of the last pumping station owned by member municipalities).

On July 1, 1989, the Northwest Utilities Authority replaced the "Zilwaukee City, Carrollton Township and Saginaw Township Sewage Disposal System" as operators of the then existing waste water treatment plant servicing the sanitary sewer systems of the City of Zilwaukee, Carrollton Township, Kochville Township and the northeast portion of Saginaw Charter Township. In addition, the member municipalities transferred to the Authority assets of their sewer system (waste water treatment plant and sewer force mains) from the point of the last pumping station owned by the respective member municipalities.

On May 18, 1990, under Act 185, PA 1957, the City of Zilwaukee, the Township of Carrollton, the Township of Kochville, the Charter Township of Saginaw and the Northwest Utilities Authority entered into a contract with the County of Saginaw providing for the bonding for the construction of a sewage transmission system to the City of Saginaw's waste water treatment plant. During October 1991, construction was completed and the sewer flow was diverted to the City of Saginaw waste water treatment plant. The employees of the Authority were also transferred to the City of Saginaw. During fiscal year 1991-92, use of the Zilwaukee sanitary sewer disposal plant had been terminated. Demolition of that plant had been completed in 1995.

The sanitary sewer systems, which provide flow to the City of Saginaw plant, are located in, owned by, and operated separately by the City of Zilwaukee, Carrollton Township, Saginaw Charter Township and Kochville Township. [Located within Saginaw County, Michigan.]

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION:

The accompanying basic financial statements of the Authority are presented as an enterprise/proprietary fund type. An enterprise fund is used to report any governmental activity for which a fee is charged to external users for goods or services. Operating revenue represents fees charged to the constituent municipalities.

The basic financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed to the extent that those standards do not conflict with or contradict the standards of the Governmental Accounting Standards Board. In accordance with GASB Statement No. 20, the Authority has elected not to follow subsequent private-sector standards.

The financial activities of the Northwest Utilities Authority are further recorded in separate sub-fund accounts for monthly billing purposes and are reported in the "supplementary financial section". The Authority's individual sub-fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, including bond interest expense, are recorded only when payment is due.

Charges to constituent municipalities and interest earnings associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the Authority.

These sub-fund accounts of the Northwest Utilities Authority are described as follows:

- *OPERATION AND MAINTENANCE FUND:*

Transactions relating to the operations and maintenance of the wastewater transmission / force mains lines, pump stations and service charges to the participating local governmental units are recorded in this fund. The operating and maintenance expenses are pro-rated monthly among the City and Townships based on the average of the past three years metered flow readings. This average is adjusted each January.

- *CAPITAL IMPROVEMENT FUND (Repair and Maintenance):*

Transactions related to the major repair and improvement to the force mains and related pump stations are recorded in this fund, including payments on installment purchase agreements related to such improvements. Effective July 1, 1993, a monthly service charge is prorated among the participating governmental units based on the average of the past three years metered flow readings. This average is adjusted each January.

- *DEBT SERVICE FUND:*

The debt service fund account is used to account for the accumulation of resources from the City of Zilwaukee, Carrollton Township, Kochville Township, and Saginaw Charter Township, and the related semi-annual transfer to Saginaw County for bond principal and interest payments on the County's 1997 Northwest Utilities Sewer Improvements Project and Refunding Bonds (General Obligation Limited Tax).

The Authority bills the City of Zilwaukee and the three Townships monthly, an amount allocated on the pro-rata share of the average of the past three years of metered flow readings. The first \$28,000 portion is specifically allocated for debt service on the Saginaw County bond issue. Next, the monthly paid expenses of the Operation & Maintenance Fund are met. The Capital Improvement Fund (repair and replacement) is allocated the remainder portion, if any.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY:

- *Cash Equivalents and Investments:*

The organization's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

State statutes authorize the Authority to invest in U.S. government obligations, certificates of deposits, commercial paper, repurchase agreements, bankers acceptances, and with some restrictions, mutual funds. An Attorney General's opinion states that public funds may not be deposited in financial institutions located in states other than Michigan.

All investments, if any, are stated at cost or amortized cost and are made in accordance with P.A. 217, 1982 of the State of Michigan.

- *Receivables and payables:*

Activity between funds that are representative of non-transferred monthly billing allocation outstanding at the end of the fiscal year are referred to as "due to/from other funds". "Receivables from municipalities" represent current billings receivable.

- *Prepaid items:*

Insurance payments reflecting costs applicable to future accounting periods are recorded as prepaid items in the basic financial statements. The individual sub-fund statements normally do not divide expenditures between fiscal years by the recording of prepaid expenses. Payments for inventorial types of supplies are not significant and are expensed at the time of purchase.

- *Capital Assets:*

Capital assets, include property, pump stations, equipment, and force mains, are reported in the "Net Asset" (basic) financial statement. Within the supplementary financial section, capital assets are not capitalized in the individual funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in the individual fund statements. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance, repairs and replacements that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Property, buildings, equipment and force mains are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50 - 100
Force mains	75
Equipment, pump stations	20
Office equipment	5
Computer equipment	5
Other equipment	10 - 50

- *Comparative Data:*

Comparative total data for the prior fiscal year have been presented in the accompanying financial statements in order to provide an understanding of changes in the Authority's financial position and operations. Also, certain amounts presented in prior year data have been reclassified in order to be consistent with current year's presentation.

NOTE 2: CASH AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the Authority to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The Authority is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The Authority's Board has designated Citizens Bank for the deposit of the Authority's funds. The investment policy adopted by the board, in accordance with Public Act 196 of 1997, has authorized investments bonds and securities of the United States government and bank accounts and CDs, but not the remainder of State statutory authority as listed above.

Deposits are carried at cost. The bank carrying value of deposits held by the respective depository accounts equates to the Authority's value of \$ 422,997. Approximately \$100,000 was covered by federal depository insurance and \$ 322,997 was uninsured and uncollateralized at June 30, 2006. Michigan statutes do not require uninsured deposits to be collateralized.

The credit risk of deposits and investments held by the Authority are classified as Category 1 – Insured or collateralized by the Authority or by its agent in the Authority's name. The deposits are summarized as follows:

Demand accounts – money market/checking	\$ 422,997
Certificates of deposits	<u>0</u>
	<u>\$ 422,997</u>

The Authority had no category 2 or 3 risk classifications or investments other than the cash deposits mentioned above.

NOTE 4: RISK MANAGEMENT

The Authority is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to the public; and natural disasters. The Authority manages its liability and property risk by participating in the Michigan Township Participating Plan. This insurance provider is organized under Public Act 138 of 1982, as amended. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

NOTE 5: USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
